ABDULRHMAN MOHAMED SOLIMAN

Front-End Web Developer | React.js Developer

Mansoura, Dakahlia 35511, Egypt | +20 155 427 3095 | abdo.soliman156@gmail.com
github.com/AbdulrhmanSoliman | linkedin.com/in/abdulrhman-soliman-575ab7217

PROFESSIONAL SUMMARY

Front-End Web Developer specializing in React.js, JavaScript (ES6+), HTML5, and CSS3, with a Udacity Front-End Web Developer Nanodegree and 7 hands-on projects built from scratch. Skilled at turning designs into responsive, accessible, user-friendly interfaces using Tailwind CSS, Sass, and Material UI, and at integrating REST APIs with Axios and Local Storage. Gained team experience through a Google-sponsored front-end internship, with additional back-end exposure in PHP and MySQL. Seeking a Front-End or React Developer role where I can build clean, high-performance web applications and keep growing within a collaborative development team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, PHP, SQL

Frameworks & Libraries: React.js, Material UI, Tailwind CSS, Sass/SCSS, Axios, Math.js

Tools & Platforms: Git, GitHub, Vite, npm, VS Code, MySQL

Concepts: Responsive Web Design, REST API Integration, Component-Based Architecture, React Hooks, State Management, CRUD Operations, Local Storage, Cross-Browser Compatibility

Spoken Languages: Arabic (Native), English (Professional working proficiency, B1)

Other: Microsoft Office (Word, Excel, PowerPoint), Data Entry, Team Collaboration

EXPERIENCE

Front-End Development Intern | **Team Project** | Mansoura, Egypt (Google-Sponsored Program)

- Collaborated with a development team on front-end web projects in a Google-sponsored internship program.
- Built and styled responsive web interfaces using HTML, CSS, and JavaScript.
- Applied modern front-end workflows and team-based development practices under mentorship.

Back-End Development Trainee | **Brain Hack** | Online Team, 3 Months

- Trained in back-end web development using PHP and MySQL as part of an online team program.
- Collaborated remotely with the team to design, build, and deliver a complete back-end project.

Data Entry Associate | **Charity Association** | Mansoura, Egypt, 4 Months

- Entered, organized, and maintained records and beneficiary data accurately across high volumes of information.
- Ensured data integrity and confidentiality while keeping digital records up to date to support administrative operations.

PROJECTS

Prayer Times (React) | *React.js, Vite, Material UI, Axios*

- Rebuilt the Prayer Times application in React.js, integrating a REST API with Axios to display city prayer times.

TODO List (React) | *React.js, Material UI, Local Storage*

- Rebuilt the to-do application with React.js and Material UI, with persistent state using Local Storage.

Prayer Times | *HTML, CSS, Vanilla JavaScript, API*

- Developed a web application that displays a city's prayer times along with a 7-day forecast.

URL Shortening Website | *HTML, CSS, JavaScript, Sass, API*

- Created a URL shortening application integrating a third-party API, with Local Storage for saved links.

Weather App | *HTML, CSS, JavaScript, Tailwind CSS, API*

- Designed a responsive weather application that displays real-time weather status for any city.

TODO List App | *HTML, CSS, JavaScript, Local Storage*

- Built a to-do list application with full CRUD (Create, Read, Update, Delete) functionality using Local Storage.

Calculator Web App | *HTML, CSS, JavaScript, Math.js*

- Developed a functional calculator application using the Math.js library.

EDUCATION

Bachelor of Agricultural Engineering | **Mansoura University, Mansoura, Egypt**
